External Height	1680mm
External Depth	1000mm
Internal Width	1150mm
Internal Height	1530mm
Internal Depth	950mm
Construction	19mm x 2mm round ERW-grade mild steel
Finish	Bright electro-zinc plating with lacquer coat

A nifty way to maximise the full height of a pallet space. This tubular steel pallet retention unit, or pallet converter, mounts onto a standard wooden 1200mm x 1000mm pallet. The two sides lock onto the pallet and the back section holds them rigid. The unit can be used as a 3-sided unit or with a half-drop front.

It is manufactured from 19mm x 2mm round ERW-grade mild steel with welded joints for strength and durability. Bright electro-zinc plating with a lacquer coat comes as standard.
