Variant 140	1000 x 1200mm, external 1450mm, internal 1300mm, load 1000kg, stack 2, 48.5kg unit
Material	Mild steel wire with welded joints
Finish	Bright electro-zinc plating with lacquer coat
Front	Half drop front on 1200mm side
Storage	Folds flat when not in use

An economic way to utilise a standard wooden pallet. This wire steel pallet retention unit, or pallet converter, sits on a pallet with clips to hold it in place. It has a half-drop front on the 1200mm dimension and can be stacked to use vertical space.

When not in use, units fold flat and can be stacked. Manufactured from mild steel wire with welded joints and finished in bright electro-zinc plating with lacquer coat.
