Mobile Steps lead time is generally 7-10 Days. Whilst we stock the step components, the mobile steps are built to order. We would typically allow 3 days to build the steps, a day to paint them and then dispatch the ladders on a 3-day service.

Easy to manoeuvre with 2 large 200mm nylon wheels and 2 smaller 100mm wheels housed in swivel castors.

The mobile ladder is fitted as standard with our industrial hi-grip steps, providing enhanced grip and stability, also a 100mm kick-plate and safety operating sticker.

These mobile safety steps are fabricated in one rigid structure giving good inherent strength.

Mobile steps are painted as standard using a one coat primer/finish - Zinfos 700CT, or can be galvanized.

Our 16 step mobile step is made and supplied in 2 parts with the bolts included. This is because the mobile steps are simply too big to put on a lorry and transport.
