Volume - Cubic metres	0.6 m³
Skip Length	1340mm
Skip Width	956mm
Skip Height	926mm
Weight	93kg
Load Capacity	1100kg

This tipping skip is for fork lift or telehandler use only. It is a heavy duty tip skip with an impressive load capacity of 1100kg. The tilting skip can be positioned by forklift in the warehouse, factory or building site etc and then picked up and moved by forklift to be emptied. A spring loaded pressure plate at the front enables automatic tipping - simply drive the tipping skip to a skip and push the base against the edge and the hopper will tilt forward and empty - simple, neat huh! The skip can also be emptied manually by pulling the locking lever at the back, a cord is supplied. The tipping skip is securely locked in the vertical position when in use with a spring lever catch. Chains are fitted to the skip which can be secured to the carriage of the forklift to ensure the tipping skip cannot accidentally slide off.
