Dimension C	1040mm
Dimension D	825mm
Dimension E	800mm
Load Capacity	1350kg
Volume	755 litres

These low height tipping skips are designed to facilitate the collection and disposal of waste and scrap and can easily be tipped from the forklift truck just by moving a lever. This allows scraps and waste to be easily, automatically and safely dumped, minimizing working time and eliminating the risk of injury. Equipped with watertight tanks the tipping skips can easily be moved by hand thanks to the four large diameter wheels, two fixed and two swivel, mounted on bearings. The skips in stock are blue however the skips come in a range of standard RAL colours so that they can be colour coded for specific waste types if required. Alternatively a galvanized finish is available. Contact us for non blue skips which will have a 5 week lead time. All skips come with CE marking plate as standard. For shipping we only charge what it costs us to deliver the skips.
