| **Weight** | 14 kg |

These are premium quality extremely tough Grit Bins made from tough recycled black polymer which is virtually indestructable. Lockable as standard these bins are ideal for roadside storage, car parks and company premises. The quality of these bins is second to none. These bins will not discolour or deteriorate through long term exposure to the elements. The hinged lid protects the grit or salt within. The lid has a GRIT logo moulded into the top so it wont scratch off. The locks are electro plated hasp and staple type and will not rust. The bin is available in 2 sizes, of 200 and 400 litre capacities. This is the 200 litre version pictured on the right. The size can be chosen from within the options.
