Mobile Steps lead time is generally 7-10 Days. Whilst we stock the step components, the mobile steps are built to order. We would typically allow 3 days to build the steps, a day to paint them and then dispatch the ladders on a 3-day service.

Dimensions	Standard Step Width (550mm)	Wide Step Width (850mm)
Platform Height From Ground	2500mm	2500mm
Overall Length	1960mm	1960mm
Overall Height	3500mm	3500mm
Frame Width	600mm	900mm
Overall Axle Width	1020mm	1320mm
Platform Size	550mm x 380mm	850mm x 380mm
Step Tread Width	550mm x 200mm	850mm x 200mm
Step Tread Vertical Spacing	250mm	250mm
Weight Standard Width	72kg	
Load Capacity	300kg	300kg

Our budget range of mobile steps is still just as heavy duty as our standard ladder range. The structure is identical, we have simply removed a few features to lower the cost. The small front wheels and lever brake have been replaced with simple “wheelbarrow” style handles to move the steps around. The kick plate around the top platform has also been removed.

This range of budget mobile steps is ideal for sporadic and occasional use, e.g. accessing archive files, periodic plant inspection, or changing light bulbs! If intended for regular use in a warehouse, your staff won’t appreciate the repeated lifting to move them, especially on the bigger mobile steps!

The mobile ladder is fitted as standard with our industrial hi-grip steps, providing enhanced grip and stability and safety operating sticker. We can offer the ladder in a wider step width of 850mm, or any custom size as required.

Mobile steps are painted as standard, or can be galvanized.
