Specifications	
Overall Length	1935mm
Overall Width	2100mm
Overall Height	150mm
Weight	274 kg
Load Capacity	6500kg

This ramp is for access into shipping containers for forklifts. The heavy duty construction offers an impressive load capacity of 6500kg. The container ramp surface is chequer plate offering a good level of grip for forklift tyres. The 2 cutouts at the front are for a forklift to pick the ramp up making it easy to move the ramp from container to container, additonal semi circle cutouts have been included so that the container doors can open without having to move the ramp, saving time and just making the ramps easier to use. This shipping container ramp for forklift trucks are in a painted finish as standard - blue RAL 5010. The shipping container ramp as an additional extra (this can be purchased above) has heavy duty 8mm chains each side and D shackles. These ramp chains allow the ramp to be secured to the shipping container safely.
