Mobile Steps lead time is generally 7-10 Days. Whilst we stock the step components, the mobile steps are built to order. We would typically allow 3 days to build the steps, a day to paint them and then dispatch the ladders on a 3-day service.

Dimensions	Standard Step Width (550mm)	Wide (N/A)
Platform Height From Ground	2750mm	
Overall Length	2075mm	
Overall Height	3750mm	
Frame Width	600mm	
Overall Axle Width	1020mm	
Platform Size	550mm x 380mm	
Step Tread Width	550mm x 200mm	
Step Tread Vertical Spacing	250mm	
Weight Standard Width	78kg	
Load Capacity	300kg	

Our budget range of mobile steps is still just as heavy duty as our standard ladder range. The structure is identical, we have simply removed a few features to lower the cost. The small front wheels and lever brake have been replaced with simple “wheelbarrow” style handles to move the steps around. The kick plate around the top platform has also been removed.

This range of budget mobile steps is ideal for sporadic and occasional use, e.g. accessing archive files, periodic plant inspection, or changing light bulbs! If intended for regular use in a warehouse, your staff won’t appreciate the repeated lifting to move them, especially on the bigger mobile steps!

The mobile ladder is fitted as standard with our industrial hi-grip steps, providing enhanced grip and stability and safety operating sticker.

Mobile steps are painted as standard, or can be galvanized.
