Axial Mobile Step 4 Step
1000mm

Product Overview

Z/STEP/4/AXIAL

Free Delivery

Load Capacity
300kg

Options

Rubber Wheels
Galvanized
Basket

Mobile Steps lead time is generally 7-10 Days. Whilst we stock the step components, the mobile steps are built to order. We would typically allow 3 days to build the steps, a day to paint them and then dispatch the ladders on a 3-day service.

Specifications	
Platform Height From Ground	1000mm
Overall Width	540mm
Length	950mm
Overall Height	2000mm
Bottom Step Size	200mm x 460mm
Platform Size	400mm x 400mm
Step Tread Depth	200mm
Step Tread Vertical Spacing	250mm
Weight	50kg
Load Capacity	300kg

Our range of Axial Mobile Steps have 4 swivel castors making them highly manoeuvrable. Together with their narrow gauge they are ideal for use in environments where space is at a premium.

These Axial Mobile Steps are based on our standard heavy duty range of steps, with all the strength, but with narrow steps and 4 swivel castors. The wheels are mounted under the framework of the steps, which means they are suitable for racking with narrow aisles or tight spaces.

Our Axial range sports 4 swivel castors which enable the steps to rotate within their own footprint. These swivel castors can be raised so the steps frame bottoms out on the ground. There are 2 lever brakes mounted within the structure which disengage each pair of wheels.

Fitted with our industrial hi-grip step as standard, also a 100mm kick-plate and safety operating sticker. Mobile steps are painted as standard using a one coat primer/finish - Zinfos 700CT, or can be galvanized. The top platform width of the steps is always 400mm.
