4 Sided Rod Infill A Frame Roll Pallet
Also available as an option is a plastic deck. As standard the deck is a steel framed with 5mm rods welded in to form a
This standard 4 sided Roll Container has an opening front door. The sides are rod infill offering a coarse mesh to retain
To nest when not in use, the steel deck folds up and the sides then fold in. The cages are then nested into the back of each other, inline nesting like a shopping trolley.
Wheels are 125mm diameter, choice of nylon or rubber tyred with roller bearings, and housed to steel castors with a 2 fixed and 2 swivel configuration.
The roll pallet as standard has a single load bearing deck. As an option, an integral shelf can be fitted, fixed though at
