Also available as an option is a plastic deck. As standard the deck is a steel framed with 5mm rods welded in to form a
This standard full security Roll Container has a front door and lid, so when the front door is shut, it can be locked with a padlock or security seal. All sides and lid are infilled with a 50x50x3mm mesh panel.
To nest when not in use, the steel deck folds up and the sides then fold in. The cages are then nested into the back of each other, inline nesting like a shopping trolley.
Wheels are 125mm diameter, choice of nylon or rubber tyred with roller bearings, and housed to steel castors with a 2 fixed and 2 swivel configuration.
The roll pallet as standard has a single load bearing deck. As an option, an integral shelf can be fitted, fixed though at
