Side Options	3 or 4 Sided
Unit Weight	47.5kg
Mesh Size	150 x 400mm
Finish	Bright Zinc Plate
Load Per Shelf	100kg
Shelf Option	Loose

The Jumbo roll pallet is a popular demountable mobile roll cage trolley with the sides and back lifting off the roll pallet base, formed in a ladder style rod infill, to allow the roll cage to be broken down in simple steps and stored when not in use. This is the 4 sided version with a half-drop front door.

The mobile aspect of the roll cage offers substantial benefits and safety over a post pallet or stillage of this size. Loose shelves are available to fit the roll pallet which locate on the 3 horizontal bars in the roll pallet side frame. Up to 3 roll pallet shelves can be fitted to each roll cage.

The roll cage is manufactured from prime ERW-grade mild steel with joints welded for outstanding strength and durability. Bright electro-zinc plating with a lacquer coat comes as standard, other finishes are available to order.
