Loose shelves are available to fit the roll pallet which locate on the mesh strands in the roll pallet side frame. Up to 3 roll pallet shelves can be fitted to each roll cage.
This is the Full Security version of the popular Jumbo roll pallet.
It is a demountable mobile roll cage trolley with the sides and back lifting off the roll pallet base, to allow the roll cage to be broken down in simple steps and stored when not in use.
The mobile aspect of the roll cage offer substantial benefits and safety over a post pallet or stillage of this size.
This security jumbo roll pallet has 50x50x3mm (2 inch square) mesh on all sides and lid offering good security. Once the lock bar on the front door is locked, no parts of the roll cage can be opened.
