Overall Height	1780mm
Internal Height	1540mm
Load Capacity	500kg
Castor Diameter	125mm
Side Options	4 Sided Mesh
Finish	Bright Zinc Plate
Shelf Option	No

The roll cage is manufactured from prime ERW-grade mild steel with joints welded for outstanding strength and durability. Bright electro-zinc plating with a lacquer coat comes as standard, other finishes are available to order.
This roll pallet is an unusually large A frame nesting roll cage
Its generous footprint of 780mm x 1120mm allure to its name as its considerably larger than a standard size roll pallet but with all the advantages that a nesting A frame has to offer.
The footprint is similar to a Euro pallet size of 800mmx 1200mm so will fit economically in standard vehicles.
The mobile roll pallet is a 4 sided unit and has an unusual combination of 4 front doors allowing good access into the cage
